**LEGION COLLEGIATE ACADEMY**  
*DECEMBER 2021 FINANCIAL SUMMARY*

**Revenue** totaled \$413,000 for the month of December 2021. This compares to budgeted revenue of \$414,000 or \$1,000 under budget. The school received its funding adjustment (increase to current enrollment) from the State in the month of December. This adjustment increased revenue by approximately \$137,000 per month. Now that the adjustment has been made, actual monthly revenue will be closer to budget since enrollment is currently 447 students compared to the budget of 475. Revenues were short of budget related to CARES Act revenue. CARES Act revenue will be received on a reimbursement basis and no money has been received for the current year. Miscellaneous fees show a deficit for the month due to the return \$10,000 to the E-rate program for a prior year overpayment.

**Expenses** for December totaled \$421,000. This compares to total budgeted expenses of \$400,000 or \$21,000 over budget. The school paid mid-year retention bonuses to staff totaling \$40,000 which pushed wage expense over budget for the month. Other than the bonus expenditure, there were no large or non-recurring expenses to report to the Board in the month of December. It should be noted, however, that athletics transportation expenses ran higher than anticipated due to basketball team out of town travel. Year-to-date, expenses are \$80,000 under budget.

**Net Loss** for the month before construction expenditures was \$8,000. This compares to budgeted profit of \$14,000 or \$22,000 under budget. With the higher monthly revenues expected during the second half of the school year, the school should be close to breakeven on a monthly basis through year end.

**Operating cash balances** as of January 15, 2022 were \$1,032,000 –which is approximately \$138,000 more than the prior month. The increase in cash occurred because the monthly bond payment (\$81,000) was made from

excess funds in the construction project trust fund (and not the operating account). The remainder of the increase was due to timing of payments on accounts payable. This represents 78 days cash on hand.
